

# COLOURS

TERRAZZO	STRATO	MARMO

INTENSE ULTRA	CONCRETE

HIMACS solid surface is identical for every colour, although darker hues have a higher percentage of natural pigments, which need more careful care and attention. There may be some slight variation in colour between the illustrated and the sample due to printing techniques, colour may vary slightly from the sample.

Alpine White is also available in the special formulations S728 HIMACS-FR (Improved Fire Resistance) and S828 HIMACS UV+ (Improved UV resistance).

☼ Suitable for exterior use. Please check conditions about level of suitability and warranty per colour.

★ Less suitable for surfaces which are subject to high traffic, due to their higher pigmented colour saturation, marks may be seen more easily.

☼ As Marmo is a randomly veined product, specific fabrication guidelines need to be followed. Ask our sales representative for more information.

☼ Luccent colours have a higher level of translucency, more evident when combined with light source.

☼ Colours with this mark have a semi-translucent effect, evident when combined with light sources.

ASTER	LUCIA	VOLCANICS	GRANITE, QUARTZ, SAND & PEARL	SOLIDS	LUCENT

## HIMACS PRODUCT LINE UP

HIMACS is a solid surface material that can be moulded into any shape. It is widely used for architectural and interior applications, such as sculptural and high performance wall-cladding or kitchen, bathroom and furniture surfaces, in commercial, residential and public space projects. It is composed of acrylic, minerals and natural pigments that come together to provide a smooth, non-porous and visually seamless surface which meets the highest standards for aesthetics, fabrication, functionality and hygiene offering manifold advantages over conventional materials.

### TERRAZZO

HIMACS Terrazzo can be used for residential, commercial and public projects of any size or style and it's especially appropriate in high traffic areas such as restaurants and bars.

### INTENSE ULTRA

The new HIMACS Intense Ultra combines the best of two worlds: Intense Colour Technology and Ultra-Thermoforming.

### STRATO

The Strato Collection enhances the HIMACS colour range with brand new design possibilities: the marked lines create geometry through its soft structure and subtle look.

### CONCRETE

Warm-tones concrete-like finishes are now available in the solid surface material, providing completely new opportunities for architects and designers.

### ASTER

With transparent grains and mother of pearl shimmer.

### LUCIA

Natural trendy colours characterised by linear-edged, midsize particles: three of those designed by Dutch Star Designer, Marcel Wanders.

### SOLIDS

From effortless to extravagant, classic to ultra-contemporary - this is a timeless collection.

### MARMO & AURORA

Captivating random veined texture, reminiscent of marble.

### VOLCANICS

Full of depth and mysticism, akin to a precious natural stone but with all of the advantages of solid surface material.

### GRANITE, QUARTZ, SAND & PEARL

A huge selection of textures and colours. Natural, elegant and perfect in combination.

### LUCENT

When combined with precisely positioned light sources, the translucent pastel shades become transformed into dramatic design "highlights".
